Reply to Election/Restriction Issued December 14, 2006

Dear Sir:

In response to the Election/Restriction issued December 14, 2006, in connection with this application, Applicant elects the following group with traverse:

Group I, Figs. 1-8, which claims 30-45 read on.

The Applicant respectfully requests the Examiner to consider including Figures 16 and 17 in elected Group I. Figure 17 is a diagrammatic view of the hinge assembly of Figure 16, but is assembled the same as Figures 3 and 4.

The Applicant respectfully submits that claim 30 is a generic claim which covers all the embodiments which are illustrated. All of the embodiments have a slot which takes the closing edge of the door. All of the illustrations show doors which must first

slide out of the slot before the door can swing open. In all but Figure 18, the slot is in a static part of the frame. In Figure 18, the slot is mobile in that it is part of a pair of doors which close to a center axis.

Therefore, the Applicant respectfully traverses the Restriction Requirement by citing specific elements in the claims which are displayed in the figures.

Respectfully submitted,

Date: January 8, 2007

D. Peter Hochberg Co., L.P.A.
